NOTIFICATION

Notification No.: JKMC-18 of 2026

Dated: 30-09-2026

ORDER

Withdrawal of extension of registration granted on the basis of Primary Registration issued by the Punjab Medical Council, consequent upon suppression of material facts, unauthorised functioning at a Single Practitioner Clinic, and the sale of Narcotic/Psychotropic Medicines in commercial quantities established on record — Dr. Rupī Varsha Soren D/O Sh. Anand Mohan Soren R/O Saro LukhiGarh, P. G. Hostel Road, Dangalpara, Dumka, Jharkhand.

ESTABLISHED ON RECORD

In the matter of Dr. Rupī Varsha Soren D/O Sh. Anand Mohan Soren, who holds Primary Permanent Registration No. 60105 dated 14.09.2023 with the Punjab Medical Council. She functioned as an unauthorised Practitioner at Jammu Manorog Clinic, Deeli Langar, Kunjwani Bypass, Jammu, owned by Smt. Arpna Sharma. That establishment holds Provisional Registration No. DRA/CERR/CMO-J/2025/JK-124 [0102101137] dated 30.09.2025, issued by the District Registering Authority, Jammu, as a Single Practitioner / Specialty (Psychiatry OPD Clinic), with Dr. Parvaiz Ahmad Khan as the Sole Person-in-Charge, as declared by the establishment itself while obtaining that registration.

The establishment previously held Provisional Registration as a Polyclinic. In the year 2025, while submitting its documents for Provisional Registration, the establishment changed the category of the Clinic from Polyclinic to Single Practitioner, obtained the Provisional Certificate, based on the documents submitted and the declaration made, as a Single Practitioner / Single Specialty Clinic, and declared Dr. Parvaiz Ahmad Khan as its Sole Person-in-Charge.

PART I — BACKGROUND

The Jammu & Kashmir Medical Council exercises statutory authority over the Territorial Register it maintains for Practitioners permitted to practice within the Union Territory of Jammu & Kashmir. The material set out below establishes:

- Suppression of material facts;
- Functioning at a clinical establishment in the face of an express refusal by the competent District Registering Authority; unauthorised functioning at a Single Practitioner Clinic;
- Grave violations of the Narcotic Drugs and Psychotropic Substances Act, 1985 and the Clinical Establishments (Registration and Regulation) Act, 2010.

The Registration granted to Dr. Rupī Varsha Soren was used to lend cover to the sale of Buprenorphine-Naloxone tablets, in commercial quantities, from an

establishment at which she had no authority to function. Upon consideration of this material, the Council records its findings and passes the consequential order set out in Part IV below.

The registration granted by this Council to Dr. Rupī Varsha Soren, bearing Registration No. 19753 dated 01.03.2024, together with the entry of Additional Qualification Registration No. 7360 dated 07.05.2024, is not an Independent or Original Grant. It is an extension of Territorial Permission issued on the basis of, and in reliance upon, her Primary Permanent Registration No. 60105 dated 14.09.2023 with the Punjab Medical Council. Its foundation rests entirely on the communication received from that Council.

This Council does not hold, and has never held, any independent authority over the said Primary Registration. This is recorded in the Punjab Medical Council's own Letter No. PMC/2023/21120041397 dated 10.10.2023, addressed to the Registrar of this Council. That letter records:

- That Dr. Rupī Varsha Soren is registered with the Punjab Medical Council and her name is valid on its State Medical Register;
- That the Original Registration Certificates are in the custody of the doctor;
- That any "No Objection Certificate" for registration with another Council "may be issued in favour of Punjab Medical Council, as the doctor is registered with this Council";
- That any such request shall accordingly be reverted back to the Punjab Medical Council;
- That the confirmation is valid for six months and subject to renewal on expiry.

It follows that this Council functions, in respect of Dr. Rupī Varsha Soren, solely as a Territorial Licensing Authority, extending the reach of the Punjab Medical Council's primary grant into the Union Territory of Jammu & Kashmir. The continuation of such extension is, and has at all times been, a privilege granted on trust and in good faith. It is conditional upon the correctness of the representations made at the time of grant and upon continued compliance with the conditions attached to it.

A privilege of this nature, continued only on the footing of good-faith compliance that has been shown to be wholly absent, is one that this Council is entitled, and indeed obliged, to withdraw. Such withdrawal restores the position that ought always to have obtained. It is not a punitive measure requiring the procedural architecture of disciplinary proceedings against an original and independent registrant. This Council does no more than withdraw an extension of its own creation, upon which no vested right could in law have accrued.

PART II — MATERIAL ON RECORD

1. Punjab Medical Council Letter No. PMC/2023/21120041397 dated 10.10.2023, as set out in Part I. Registration No. 19753 dated 01.03.2024 was granted subsequent to, and expressly on the strength of, this letter.

2. Provisional Registration No. DRA/CERR/CMO-J/2025/JK-124 [0102101137] dated 30.09.2025, valid up to 30.09.2026, issued by the District Registering Authority, Jammu. It registers Jammu Manorog Clinic as a Single Practitioner / Speciality (Psychiatry OPD Clinic), with Dr. Parvaiz Ahmad Khan as the Sole Person-in-Charge. No other Practitioner was declared or registered to function at the establishment while seeking the Provisional Registration, and the category of the Clinic was changed by the establishment from Polyclinic to Single Practitioner. Its declared working hours are 10:00 AM to 5:00 PM, and 10:00 AM to 1:00 PM on Sundays.

3. Intimation dated 08.05.2026 by the establishment, proposing that Dr. Rupri Varsha Soren function at the Clinic from 22.05.2026 to 02.06.2026. No approval was granted on it.

4. Communication No. CMO-J/NCORD/2026/3462-70 dated 25.05.2026 of the Chief Medical Officer / District Registering Authority, Jammu. It specifically and expressly declined the proposed arrangement and recorded that no approval had ever been granted to Dr. Rupri Varsha Soren at any point in the past.

5. Communication No. CMO-J/NCORD/2026/4905-14 dated 27.06.2026 of the Chief Medical Officer, Jammu. It records that Dr. Rupri Varsha Soren functioned at the establishment, handling Narcotic/Psychotropic Medicines, without any valid permission. It requires disclosure of: the Buprenorphine-Naloxone procured and sold during her functioning; in whose name and on whose prescription the commercial orders for Narcotic/Psychotropic Medicines, including Buprenorphine-Naloxone, were placed; who signed the mandatory Form-6; who received the narcotic consignments that were sold; and whether she was simultaneously engaged at any establishment outside the Union Territory of Jammu & Kashmir at the same time. These questions have not been answered with a single supporting document, and remain unanswered to this date.

6. Written reply dated 01.07.2026 of Jammu Manorog Clinic, signed by the Proprietor, Smt.

Arpna Sharma, and the Person-in-Charge, Dr. Parvaiz Ahmad Khan. In it the establishment admits that:

- Dr. Rupri Varsha Soren functioned at the clinic from 22.05.2026 to 26.05.2026;
- Buprenorphine-Naloxone tablets were sold during that period, as tabulated in Finding 3 below;
- The medicines were procured from M/S Vallenoid Pvt. Ltd., Ludhiana, Punjab.

The reply is silent on her simultaneous engagement outside the Union Territory, on the mandatory Form-6, and on the other statutory documents relating to the procurement and sale of narcotic medicines.

7. Reply No. DMHP/CHH/2024/31 dated 19.07.2024, issued by the District Mental Health Programme, Civil Hospital, Hoshiarpur, Punjab. At Serial No. 5 of the Private De-Addiction Centres, it records Dr. Rupri Varsha Soren as the In-charge Psychiatrist of Ek Prayaas Hospital, near BPCL Petrol Pump, Garhshankar, District Hoshiarpur, Punjab, a De-addiction Centre functioning 24x7, registered and valid from 26.06.2024 to 25.06.2027.

PART III — FINDINGS

Finding 1 — Suppression of a full-time charge in another State

The extension of Territorial Permission was granted on the footing that the Practitioner sought to practise in good faith within this Union Territory. It has since emerged that from 26.06.2024 Dr. Rupī Varsha Soren has held charge, as In-charge Psychiatrist, of Ek Prayaas Hospital, Garhshankar, Punjab, a De-addiction Centre functioning round the clock. At no stage was this disclosed to this Council, or to the District Registering Authority, Jammu, when her functioning at Jammu Manorog Clinic was proposed. The establishment was specifically asked about it Vide the Communication dated 27.06.2026, and its reply does not answer. A Practitioner who holds round-the-clock (24x7) responsibility for a De-addiction Centre in another State cannot simultaneously function in person at an OPD in Jammu. The Union Territory registration was not used for bona fide practice within this Union Territory, and the grant proceeded on a footing that has not held true.

Finding 2 — Functioning at a Single Practitioner Clinic in defiance of express refusal

Jammu Manorog Clinic is registered strictly as a Single Practitioner Clinic, with Dr. Parvaiz Ahmad Khan as its Sole Person-in-Charge. That category was chosen by the establishment itself in 2025, in place of its earlier Polyclinic category. The functioning of Dr. Rupī Varsha Soren was proposed on 08.05.2026 and was never approved. She nonetheless commenced functioning from 22.05.2026, without any approval in hand. She continued to function despite the fact that the District Registering Authority expressly declined the arrangement. The registration granted by this Council was thereby used to lend cover to functioning that the competent registering authority had refused.

Finding 3 — Sale of Narcotic/Psychotropic Medicines in commercial quantities

The establishment's own written reply dated 01.07.2026 places the following on record. These are Buprenorphine-Naloxone tablets, a psychotropic substance under the NDPS Act, 1985, sold from the premises in the five days of her unauthorised functioning:

Date	Day	BPNX Plus (2/0.5) tablets	BPNX Lite (0.4/0.1) tablets	Total tablets sold	Tablets per working hour*	One tablet every
22.05.2026	Friday	6,430	1,040	7,470	1,067	3.4 seconds
23.05.2026	Saturday	7,020	960	7,980	1,140	3.2 seconds
24.05.2026	Sunday	3,260	600	3,860	1,287	2.8 seconds
25.05.2026	Monday	9,280	840	10,120	1,446	2.5

Date	Day	BPNX Plus (2/0.5) tablets	BPNX Lite (0.4/0.1) tablets	Total tablets sold	Tablets per working hour*	One tablet every
						seconds
26.05.2026	Tuesday	8,090	1,060	9,150	1,307	2.8 seconds
Total	5 days	34,080	4,500	38,580	1,245	2.9 seconds

* Computed over the full declared working hours — 10:00 AM to 5:00 PM (7 hours) Monday to Saturday, and 10:00 AM to 1:00 PM (3 hours) on Sunday; 31 hours in all — without deducting any lunch break.

In five days, 38,580 Buprenorphine Tablets were sold from a Single Practitioner OPD Clinic whose only authorised practitioner was not the one functioning.

On 25.05.2026, the very date on which the District Registering Authority expressly declined her functioning, 10,120 tablets were sold in a single day.

These figures are not estimated or inferred by this Council. They are admitted in writing by the establishment itself, under the signatures of its Proprietor and its Person-in-Charge.

Finding 4 — Time available per patient

(The time slot in which, on the establishment's own case, each patient was checked, diagnosed and counselled, notes were put in his file, the narcotic medicine was prescribed, the prescription was generated, and the medicine was handed over to the patient)

The establishment's own day-wise statement records the number of patients attended by Dr. Rupi Varsha Soren on each day. Measured against the declared working hours of the establishment (10:00 AM to 5:00 PM; 10:00 AM to 1:00 PM on Sundays), the time available to her for each patient was as follows:

Date	Day	Declared hours	Patients attended	Buprenorphine tablets sold	Time available per patient
18.04.2024	Thursday	7 hrs	283	7,480	1 min 29 sec
19.04.2024	Friday	7 hrs	205	5,240	2 min 03 sec
20.04.2024	Saturday	7 hrs	295	7,500	1 min 25 sec
21.04.2024	Sunday	3 hrs	166	4,310	1 min 05 sec
22.04.2024	Monday	7 hrs	327	8,230	1 min 17 sec
23.04.2024	Tuesday	7 hrs	273	7,280	1 min 32 sec
24.04.2024	Wednesday	7 hrs	292	7,910	1 min 26 sec
25.04.2024	Thursday	7 hrs	283	7,190	1 min 29 sec
26.04.2024	Friday	7 hrs	168	4,280	2 min 30 sec
27.04.2024	Saturday	7 hrs	302	8,010	1 min 23 sec
28.04.2024	Sunday	3 hrs	170	4,130	1 min 04 sec

Date	Day	Declared hours	Patients attended	Buprenorphine tablets sold	Time available per patient
01.04.2025	Tuesday	7 hrs	216	6,650	1 min 57 sec
02.04.2025	Wednesday	7 hrs	209	6,070	2 min 01 sec
03.04.2025	Thursday	7 hrs	240	7,130	1 min 45 sec
04.04.2025	Friday	7 hrs	258	7,790	1 min 38 sec
05.04.2025	Saturday	7 hrs	221	7,330	1 min 54 sec
22.05.2026	Friday	7 hrs	241	7,470	1 min 45 sec
23.05.2026	Saturday	7 hrs	263	7,980	1 min 36 sec
24.05.2026	Sunday	3 hrs	160	3,860	1 min 08 sec
25.05.2026	Monday	7 hrs	330	10,120	1 min 16 sec
26.05.2026	Tuesday	7 hrs	305	9,150	1 min 23 sec

Computed from the day-wise figures furnished by the establishment, over the full declared working hours, without deducting any break.

On 25.05.2026 (330 patients, 10,120 Buprenorphine tablets), 22.04.2024 (327 patients) and 20.04.2024 (295 Patients, 7,500 Tablets), each Patient got little more than a minute. On the Sundays, within a declared window of only three hours (10:00 AM to 1:00 PM), 160 to 170 patients are shown — barely one minute each.

Finding 5 — One minute to diagnose, counsel, put notes in the patient case file, prescribe, generate the prescription and hand over a narcotic: unauthorised consultation of the most vulnerable patients

Dr. Rupi Varsha Soren is neither the declared Person-in-Charge nor a Practitioner of this establishment. The Patients she is shown to have attended were the Patients of Dr. Parvaiz Ahmad Khan. The establishment classifies the great majority of them as "follow-up" — but they were follow-up patients of Dr. Parvaiz Ahmad Khan, not of hers. She attended the establishment only in short, isolated spells, about a year apart. To her, every Patient was a new Patient, seen for the first time, whose history, diagnosis, course of treatment, dose, response and progress she could not have known.

Every one of these Patients — drawn from a population that is among the most vulnerable any doctor can be entrusted with, and that requires the utmost care, patience and motivation — was, on the establishment's own case, given all of the following within that single minute:

- A diagnosis, made by a doctor who had never seen the patient before;
- Verification of the diagnosis earlier made by Dr. Parvaiz Ahmad Khan;
- An assessment of the patient's well-being and of his motivation to remain in treatment;
- A decision whether a narcotic medicine was actually required at all — and if so, whether it was to be continued or tapered;
- Counselling of the Patient on that decision;
- Notes of the consultation entered in the patient's case file;
- A prescription slip, duly signed and stamped by her;
- And finally, the Narcotic Medicine itself, handed over against that prescription.

All of this, for each patient, in barely one minute — diagnosis, verification of the earlier diagnosis, counselling, the decision to continue or taper, a signed prescription, and the dispensing of Buprenorphine against it.

Seen from the side of the Patient, the position is starker still. A young person dependent on opioids — among the most vulnerable patients any doctor can be entrusted with — walked into this establishment and, on the establishment's own figures, received little more than one minute of a doctor's time. In that single minute he is supposed to have been diagnosed, examined, counselled, told whether his medicine would be continued or tapered, handed a signed prescription, and handed the Buprenorphine itself. Then the next patient. And the next — 330 times in a single day.

No psychiatrist can diagnose, examine, counsel and prescribe for a Patient she has never seen before in one minute. What can be done in one minute is to hand over medicine. The establishment's own figures — the number of Patients, the minutes available to each, and the 10,120 Buprenorphine tablets that left the premises on 25.05.2026 alone — do not describe the practice of Psychiatry. They describe the sale of a Narcotic Medicine across a counter, under the name of a doctor who had no authority to function there.

This is the gravity of the unauthorised practice carried on by Dr. Rupī Varsha Soren. It was not a technical lapse of approval. It exposed the most vulnerable Patients — many of them young, all of them dependent on opioids — to a Narcotic Medicine without the assessment, supervision and care that alone justify its prescription. Over 21 days, 1,45,110 Buprenorphine Tablets left the establishment in this manner. Not one prescription, OPD record or dispensing register has been produced to show that a Single Patient was actually examined.

Finding 6 — The pattern is not isolated

The same written reply further admits that Dr. Rupī Varsha Soren functioned at the establishment from 18.04.2024 to 28.04.2024, when 71,560 Tablets were sold, and from 01.04.2025 to 05.04.2025, when 34,970 Tablets were sold. That brings the total admitted sale across her three spells to approximately 1.45 lakh tablets (1,45,110 Buprenorphine Tablets in 21 days).

- During the 2025 and 2026 spells, she was simultaneously the declared in-charge of the 24x7 de-addiction centre in Punjab, working full time there.
- The medicines in every spell were procured from a single supplier located in Punjab, M/S Vallenoid Pvt. Ltd., Ludhiana.

One brand, and nothing else, which is BPNX. Across all three spells, the only medicine the establishment accounts for as dispensed during her functioning is a single brand — BPNX (BPNX Plus and BPNX Lite, Buprenorphine-Naloxone). The establishment's own statement records no other medicine whatsoever: not one antidepressant, antipsychotic, mood stabiliser, anxiolytic or any other psychiatric drug, from a clinic registered as a Psychiatry OPD. For 21 days of functioning as a Psychiatrist, the entire account consists of 1,45,110 tablets of one brand of one Narcotic/Psychotropic combination, sourced from one supplier outside the Union Territory.

Finding 7 — The extension does not survive the falsity of its foundation

An extension of Territorial Permission granted on the faith of representations since shown not to hold true does not continue as a subsisting privilege. This is particularly so where the privilege has been used to lend cover to the sale of Narcotic/Psychotropic Medicines at an establishment where the Practitioner's functioning had been expressly refused. The necessary regulatory consequence is withdrawal of the extension. This is not a punitive step but the necessary and proportionate correction of a position that ought not to have continued on the footing represented.

PART IV — OPERATIVE ORDER

In light of the foregoing findings, each of which independently and cumulatively supports the consequential action set out below, and considering the sensitivity of narcotic drugs and the vulnerability of the persons who consume them — persons, very often young, struggling with substance dependence, who require the utmost care, direction, consultation and continuous medical supervision — this Council, in exercise of its statutory authority, orders as follows, with immediate effect:

1. WITHDRAWAL OF EXTENSION OF TERRITORIAL PERMISSION:

The extension of Territorial Permission granted by this Council to Dr. Rupī Varsha Soren D/O Sh. Anand Mohan Soren, on the basis of her Primary Permanent Registration No. 60105 dated 14.09.2023 with the Punjab Medical Council, permitting her to practise within the Union Territory of Jammu & Kashmir, is hereby WITHDRAWN with immediate effect from the date of this Order. Upon such withdrawal, the registration reverts to, and subsists solely with, the Punjab Medical Council, being the Primary Registering Authority in respect of Dr. Rupī Varsha Soren.

2. CLOSURE OF LOCAL RECORD:

This Council's local record of Registration No. 19753 dated 01.03.2024, with Additional Qualification Registration No. 7360 dated 07.05.2024 entered against it, stands closed and removed with immediate effect. Intimation of the same is being sent to the Punjab Medical Council.

3. IMMEDIATE OPERATIVE EFFECT:

With effect from the date of this Order, Dr. Rupī Varsha Soren shall not practise medicine, particularly involving the selling, dispensing or prescribing of Narcotic/Psychotropic Medicines, within the Union Territory of Jammu & Kashmir. She shall not prescribe, procure, store, sell or dispense any Narcotic or Psychotropic Substance within the Union Territory, and shall not be projected as a Specialist Psychiatrist, Person-in-Charge, or in any clinical or supervisory capacity at any Clinical establishment within it. Any Clinical establishment that engages or projects her shall be treated as functioning without a Registered Medical Practitioner recognised by this Council, and without lawful authority to procure, store, sell or dispense any Narcotic or Psychotropic Substance.

4. REFERENCE TO PUNJAB MEDICAL COUNCIL:

This Council has, and can have, no jurisdiction over Primary Registration No. 60105 held by Dr. Rupri Varsha Soren with the Punjab Medical Council. A copy of this Order, together with the entirety of the material on record, shall accordingly be forwarded to the Registrar, Punjab Medical Council. The Council requests that the said primary registration be examined in light of the findings recorded herein, and that such further action be taken as that Council may consider appropriate, having regard to the public-health and public-safety dimensions of the conduct established on record. That conduct includes:

- Unauthorised functioning at an establishment, in defiance of the express refusal of the registering authority;
- Suppression of her simultaneous charge of a de-addiction centre within the jurisdiction of the Punjab Medical Council itself.

This conduct amounts to professional misconduct under the National Medical Commission Act, 2019 and the Regulations framed thereunder.

5. REFERENCE TO NATIONAL MEDICAL COMMISSION:

A copy of this Order and the material on record shall be forwarded to the Secretary, National Medical Commission, New Delhi, for such notation on the National Register and such further examination as the Commission may consider appropriate.

6. COMMUNICATION TO DISTRICT REGISTERING AUTHORITY, JAMMU:

A copy of this Order shall be communicated to the Chief Medical Officer / District Registering Authority, Jammu, with a request that immediate and appropriate action be taken in respect of Provisional Registration No. DRA/CERR/CMO-J/2025/JK-124 [0102101137] of Jammu Manorog Clinic. The District Registering Authority, Jammu, is further requested to cause an audit of the Narcotic/Psychotropic Medicine procurement records; the Form-6 records and the signatories of those Form-6 records; the order forms against which huge commercial quantities of Narcotic/Psychotropic Medicines were procured, and the signatories of those order forms; the invoices and prescription records, for all periods during which Dr. Rupri Varsha Soren functioned there. The purpose is to ascertain the full extent of the Narcotic/Psychotropic Medicines sold without lawful authority, and by whom they were sold.

7. REFERENCE TO NARCOTICS CONTROL BUREAU:

A copy of this Order, and the material on record, shall be forwarded to the Narcotics Control Bureau, New Delhi, and the Narcotics Control Bureau, Jammu, with a request for a complete audit of the procurement, supply, stock and sale of Narcotic/Psychotropic Medicines connected with Dr. Rupri Varsha Soren, and for such action under the Narcotic Drugs and Psychotropic Substances Act, 1985 as may be considered appropriate. This includes examination of the supply of Buprenorphine-Naloxone to Jammu Manorog Clinic by M/s Vallenoid Pvt. Ltd., Ludhiana, Punjab, during the periods of her unauthorised functioning, including checking of the order forms against which such commercial quantities of Narcotic/Psychotropic Medicines were

dispatched, the Form-6 records and their signatories, and the persons who received the medicines, during the relevant periods of unauthorised functioning.

8. REFERENCE TO DIRECTOR HEALTH SERVICES, PUNJAB:

A copy of this Order shall be forwarded to the Director Health Services, Punjab and the Civil Surgeon, Hoshiarpur, with a request for a complete audit of the functioning of Ek Prayaas Hospital, Garhshankar, or any other place of her functioning, and of the complete attendance record of Dr. Rupī Varsha Soren as its declared 24x7 in-charge psychiatrist, from the date of her joining (26.06.2024) till date, including in particular the periods 01.04.2025 to 05.04.2025 and 22.05.2026 to 26.05.2026, when she is admitted to have functioned at Jammu Manorog Clinic, Jammu.

PART V — CONCLUDING OBSERVATIONS

The withdrawal effected by this Order is the immediate and proportionate regulatory consequence flowing from the findings recorded herein. The references to the Punjab Medical Council, the National Medical Commission, the District Registering Authority, Jammu, the Narcotics Control Bureau and the Director Health Services, Punjab are made so that each authority may examine the matter within its own jurisdiction and take such further action as it considers warranted.

This order is issued in the interest of patient safety, public health and the integrity of the medical regulatory framework, with the approval of the competent authority — and above all in the interest of a population that is highly vulnerable, that requires the utmost care, supervision and motivation to recover, and that must be protected from being drawn deeper into dependence on Narcotic/Psychotropic Medicines rather than being treated for it.

Dr. Sandeep Dogra
